

Women in Sustainable Development – issues and careers

On Monday 8th March, Cambridge AWiSE will be celebrating International Women's Day in style. We are delighted to welcome Dr. Sally Uren, Deputy Chief Executive for Forum for the Future and Dr. Beatrix Schlarb-Ridley from InCrops and the University of Cambridge as our speakers.

Forum for the Future is a non-profit organisation with a mission to promote sustainable development. They help businesses and public service providers understand the risks associated with global challenges such as climate change, food and energy security and population growth and help them find a way to a sustainable and successful future. Much of **Dr. Sally Uren's** work involves helping the business community realise the opportunities of sustainable development and the competitive advantages. The **InCrops Enterprise Hub** supports business and stimulate sustainable economic growth and promote technology transfer. **Dr Beatrix Schlarb Ridley** is a plant biochemist with experience in photosynthesis research and a strong interest in applying research outputs.

Monday 8th March 2010 17:30-19:00

Followed by networking with wine and canapes.

Talks free, Talks and Networking £10

Lucy Cavendish College, Cambridge CB3 0BU.
