Celebrating International Women's Day and National Science Week

5.45 – 7.15pm, Tuesday 11th March 2008
Lucy Cavendish College

Creativity and Innovation: Personal Strengths and the Shaping of Careers in Science

In memory of Dr Anne McLaren FRS DBE,
Past President of AWiSE and Honorary Fellow, Lucy Cavendish College.

Tickets for the talks are free but *please register by email to info@camawise.org.uk*

In a knowledge-based world, human capital is the most important factor. How can the personal development of scientists help us to produce really innovative and creative science? This mini-symposium will be of interest to students, researchers and employers alike and will include a vibrant panel discussion.

Dr. Melanie Lee

Executive Vice-President, Research and Development, UCB-Celltech,
Chair of Cancer Research Technology and Vice-Chair of CRUK

Dr. Sabine Bahn

University Lecturer in Biotechnology, Fellow of Lucy Cavendish College,
Director, Cambridge Centre for Neuropsychiatric Research, founder Psynova Ltd

Dr. Ruth Cameron

Reader in Polymers and Medical Materials, Fellow of Lucy Cavendish College
Joint Director of the Cambridge Centre for Medical Materials.

A **Formal Dinner** will follow at Lucy Cavendish College at a cost of £30 per person. Some places will be available for students and unwaged at £15. Contact Dr Lucinda Spokes, Coordinator of Cambridge AWiSE at info@camawise.org.uk before 4th March to book a place.

This meeting is kindly sponsored by the Greater Cambridge Partnership. Cambridge AWiSE is supported by the UK Resource Centre for Women in SET and The University of Cambridge.
